

2023-2026 Strategic Plan

MISSION

To advance Interventional Oncology (IO) as the fourth pillar of cancer therapy alongside medical, surgical, and radiation oncology worldwide.

VISION

SIO's mission is to advance interventional oncology by optimizing learning & development for all levels of practitioners through education and research.

GOAL STATEMENTS

EDUCATION

ADVANCE the levels of evidence in interventional oncology, supporting access to preclinical and clinical research efforts in collaboration with our industry partners.

ENGAGEMENT

IDENTIFY AND CREATE learning opportunities designed to deliver high quality content through a variety of virtual or in-person platforms driven by SIO subject matter experts and industry partners, covering 100-300 learning levels.

ADVOCACY

BUILD AND SUSTAIN engagement with the diverse IO community of volunteers, members, industry, and complimentary societal relationships through direct partnership and outreach opportunities.

EDUCATION

Multi-Year Strategic Goals

- **Objective #1:** SIO will organize existing programs, tools, and resources in alignment with SIO's Learning Framework and identify priority knowledge gaps within learning domains.
- **Objective #2:** SIO will identify future Master Class or Workshop initiatives that map from basic to advanced learning levels.
- **Objective #3:** SIO will develop mechanism to identify emerging therapies and unmet educational needs for new technologies in IO.

INNOVATION

Multi-Year Strategic Goals

- **Objective #1:** SIO will achieve enrollment for ACCLAIM study with minimum of 10 sites.
- **Objective #2:** SIO will explore and define up to three (3) opportunities that pair unmet IO research needs with industry collaboration.
- **Objective #3:** SIO will determine preferred SIO supported IO publication pathway(s) and future development.
- **Objective #4:** SIO will develop targeted training opportunities to advance technical research skills of the IO community.

ENGAGEMENT

Multi-Year Strategic Goals

- **Objective #1:** SIO will increase international membership involvement in SIO through international partnerships and chapter membership modeling.
- **Objective #2:** SIO will build Resident and Medical Student engagement opportunities through section leadership, education programs, and scholarship opportunities.
- **Objective #3:** SIO will improve societal leadership succession planning by generating a multi-year leadership succession model for multiple levels of society engagement.
- **Objective #4:** SIO will form alliances with key societal and oncology organizations with a goal for multidisciplinary engagement representing the role of IO in the integrated cancer-care team.
